

**Premier
League**

Safeguarding Strategy

Introduction

The Premier League is committed to safeguarding children and adults at risk. Promoting and protecting the safety and welfare of children and adults at risk is extremely important to us; we believe that everyone has the right to enjoy football in a safe and inclusive environment.

This document sets out our vision, core principles and strategic approach to safeguarding.

Vision

To offer an enjoyable experience and create inclusive and welcoming environments where children and adults at risk are safe, valued and respected. We will do this through:

1. Leadership and Commitment
2. Strong Governance
3. Prevention
4. Protection; and
5. Empowerment and Education

Strategic objectives and how we will achieve these

Leadership and Commitment

Core principle: While the Board is ultimately responsible for ensuring that effective safeguarding policies and processes are in place, safeguarding should be considered by everyone.

Strategic objective: Embed a culture of safeguarding across the Premier League. To achieve this, we will work to ensure that:

- Safeguarding is considered throughout our values and priorities;
- The Board champions safeguarding and contributes to raising safeguarding awareness and communicating policies and procedures;
- There are staff with dedicated operational responsibility for safeguarding; and
- Safeguarding policies, rules and any proposed improvements are discussed and endorsed at Board level.

Governance

Core principle: Robust and transparent governance arrangements for safeguarding are essential.

Strategic objective: Establish a strong governance framework to support our safeguarding arrangements.

To achieve this, we will work to ensure that:

- Premier League Board members and Boards of Clubs are clear about their responsibilities;
- Our regulatory framework is consistent with legislation, government guidance, and good practice;
- We implement effective measures to monitor Club compliance with our regulatory framework;
- We take appropriate action when our safeguarding policies and rules have been breached; and
- We regularly assess whether our safeguarding policies, procedures and rules are effective in practice or if improvement is required.

Prevention

Core principle: Prevention is the primary aim of our safeguarding arrangements.

Strategic objective: Take all reasonable steps to create an environment where it is as difficult as possible for any form of abuse, exploitation or mistreatment of children and adults at risk to take place.

To achieve this, we will work to ensure that:

- We implement effective safer recruitment procedures to assess the suitability of any person employed or deployed to work with or on behalf of children and adults at risk;
- We implement effective safeguarding policies and procedures that apply to everyone involved with the Premier League, and in particular those in positions of trust and influence;
- Safeguarding is a key consideration during the planning, delivery and review of all our activities involving children and adults at risk;
- We actively promote safeguarding in all of our partnership work where children and adults at risk are involved;
- We carefully assess and mitigate risk; both to children and adults at risk and to the Premier League; and
- We work with Clubs to help them meet our safeguarding requirements by providing support, guidance and education.

Protection

Core principle: Having a clear and effective process for dealing with safeguarding concerns, and working together with statutory and football authorities, enhances our ability to protect children and adults at risk.

Strategic objective: Promote and protect the safety and welfare of children and adults at risk wherever possible and continuously work with our key stakeholders to strengthen our safeguarding arrangements and to share good practice across the game.

To achieve this, we will work to ensure that:

- We take all safeguarding incidents, allegations and concerns seriously and ensure that they are dealt with swiftly and appropriately;
- We implement effective procedures for managing safeguarding concerns and allegations;
- There is a supportive internal response to referrals of safeguarding incidents, allegations, concerns, complaints and whistleblowing;
- There is a multidisciplinary approach to promoting and protecting the safety, welfare and well-being of children and adults at risk; and
- Information is shared where necessary to protect the safety and welfare of children and adults at risk.

Empowerment and Education

Core principle: We believe that if our staff and any children and adults at risk which place their trust in us are empowered to recognise and report abuse, we will be in a stronger position to prevent, and protect.

Strategic objective: We are committed to raising safeguarding awareness and empowering everyone we engage with to identify and report concerns.

To achieve this, we will work to ensure that:

- Safeguarding procedures, individual responsibilities and details on how to seek support or raise concerns are widely promoted to everyone involved with the Premier League;
- We develop a workforce who are empowered to: create safe environments, recognise safeguarding concerns and risks, and to take appropriate action when an issue arises;
- Those employed or deployed to work with or on behalf of children and adults at risk receive regular safeguarding education;
- We empower children and adults at risk by helping them understand their rights to protection from abuse, exploitation and mistreatment, and where they can get help or advice if they need it; and
- We create a culture that gives children and adults at risk a voice and takes account of their rights and wishes in decision making.
